Dr. Joshua Lederberg
Rockefeller University
1230 York Avenue
New York, N.Y. 10021

Dear Dr. Lederberg:

Our Parents Association, in conjunction with the school, has initiated a campaign to raise much needed funds for Stuyvesant's instructional program. The monies raised would be applied principally to the science and mathematics programs for equipment, computers and supplies so sorely needed. As you know, runaway inflation and ever-shrinking budgets threaten to reduce our capacity to provide quality services and equipment needed by our bright youngsters.

To aid in this campaign, may I ask that you provide us with some brief statement or quotable "blurb" about your own Stuyvesant experience which we would include in our brochure going out to parents and alumni. The weight of your name and reputation would, we feel, be instrumental in attracting the much needed funds.

Sincerely yours,

Gaspar R. Fabbriante
Principal
